FEED:

WEEKLY SUMMARY....12

FEEDSTUFFS: WHOLESALE PRICES....13-14

DISTILLERS' AND BREWERS' DRIED GRAINS: U.S. PRODUCTION AND ENDING STOCKS, JULY 1985....15

HIGHLIGHTS: Wheat markets firmed after Russia announced they would buy the 1.1 million tons of U.S. wheat left on their current grain agreement. The relatively strong U.S. dollar market traded lower two days of the period, giving export markets a little boost. Yellow corn markets showed spot strength as new export trades expanded and rains delayed new crop harvest over wide areas.

WHEAT: Wheat markets responded to reports indicating Russia would honor their agreement and take an additional 1.1 million tons of U.S. wheat. Rain damage to spring wheat added market support to the better qualities. Kansas City No.1 hard red winter ordinary protein wheat rose 13 cents per bushel St. Louis No.2 soft red winter wheat advanced 13 cents per bushel. Minneapolis No.1 dark northern spring 14 percent protein wheat traded 22 1/4 cents higher per bushel. Portland No.1 soft white wheat rose 5 cents per bushel.

CORN: Yellow corn markets were generally depressed by the nearby new crop harvest but spot tightness forced markets higher in some areas. Omaha No.2 yellow corn advanced 3-5 cents per bushel. White corn markets were inactive and processors planned to reduce bids for rail delivery as truck bids sagged toward the yellow corn basis.

OATS AND BARLEY: Oats markets responded to reduced farmer offerings and prices moved mostly 4-5 cents higher. Barley markets traded in mixed trends with malting barley up 10 cents and feed barley steady.

SORGHUM: Dull demand and spreading new crop receipts depressed sorghum markets. Kansas city No.2 yellow sorghum declined 34 cents per hundred pounds. Texas High Plains sales activity resumed with good demand from nearby Arkansas poultry feeding areas where new lower freight rates encourgaed trade.

OILSEEDS: Soybean trade was limited early in the week by the strong U.S. dollar and nearby new crop harvest pressure. Late week dollar weakness and a surge of export trade lifted prices from the week ago price levels. Illinois Processor point bids advanced 3 1/2-9 1/2 cents per bushel. Minneapolis flaxseed declined 15 cents per bushel. Duluth sunflower seeds were not quoted and the Minneapolis market traded steady all week. Sunflower oil averaged about steady at Minneapolis and Illinois Processor points soybean bids averaged 7 cents higher per bushel.

HIGHLIGHTS: Feed grains, depressed by large stocks, Good pastures, and nearby new crop harvest, worked downward toward a new crop basis during the week ended September 4th. Feedstuffs markets traded mixed with most of the strength coming from tight stocks as much of the processor production is applied against export sales and many plants are taking down-time to remodel or repair equipment before the new crop harvest reaches full swing. Poor feeding ratios descouraged heavy feeding. Best outlet for feedstuffs are dairy, and poultry. Most feeders are using least cost feed formulations utilizing home grown feeds and purchased concentrates. Some spots showed increased usage of formula feeds as local feed grain supplies tightened

OILSEEDS: Soybean meal markets advanced sharply as many processors took down-time to ready equipment for the nearby new crop harvest and much of the production is applied against export contracts. Decatur 44 percent protein soybean meal rose $3.50 and 48 percent protein meal advanced $4.00 per ton. California Mills cottonseed meal held unchanged, but Memphis cottonseed meal rose $5.00 per ton. Rains delayed cotton maturity in southern states. Minneapolis linseed meal traded unchanged with supplies tight and production applied against export and domestic contract sales. Sunflower 28 percent protein meal declined $6.00 per ton but with a firmer undertone as rains delayed new crop harvest. Sunflower oil fell 1 1/4 cents per pound at Minneapolis and Decatur soybean oil declined nearly 1/2 cent per pound.

ANIMAL PROTEIN: Meat meal markets showed a mixed trend as tight supplies was offset by light domestic demand. Increasing export interest added market support late in the period. Kansas City and Minneapolis meat meal fell $5.00 but the Los Angeles market rose $5.00 per ton. Gulf and East coast fish meal markets turned stronger as tropical storms interrupted fishing and the season neared completion in Gulf waters.

CORN FEEDS: Old crop corn stocks are very tight and new crop corn harvest is delayed by rain and high moisture in the grain. Corn feeds production declined seasonally. Corn gluten feed, in tight supply traded unchanged at Kansas City but advanced $3.50 at Illinois Processor points. Corn gluten meal also is in tight supply and traded $2.50 higher per ton at Illinois Points. Yellow hominy feed production is light and processors are behind on shipments with prices reported uchanged. Distillers' dried grains are in tight supply and traded unchanged to higher. Brewers' dried grains are in extremely tight supply and mostly $3.00-5.00 per ton higher.

WHEAT MILLFEEDS: Flour mills took some holiday time but production remains mostly heavy and selling pressure kept wheat middlings on the weak side at several locations. The exception was St. Louis where tight supplies forced prices up $2.00 per ton. The Buffalo market declined $3.50, Minneapolis market steady and Kansas City market $1.00 lower per ton. Portland millrun traded $1.00 lower per ton.

ALFALFA PRODUCTS: Alfalfa markets moved mixed in thin trade. Excellent pastures over much of the country depressed usage, but high production cost caused some processors to firm prices.

MOLASSES: Sugarcane molasses for feeding continued steady in the Gulf coast, steady to $5.00 higher on the West coast as several locations followed last weeks increase and east coast markets remained mostly $2.00-3.00 lower. Slightly increased demand and prospects for a good crop year lent spot strength to markets as trading continued quiet throughout the trading area.

FEEDSTUFFS: Wholesale prices, dollars per ton, bulk except Soybean Oil, Sunflower Oil and Animal Fat cents per pound

FEED:

WEEKLY SUMMARY....19

FEEDSTUFFS: WHOLESALE PRICES....20-21

FEEDSTUFFS WHOLESALE PRICES AUGUST 1985....22-23

HIGHLIGHTS: Wheat markets mostly higher across the nation. Export demand widened in spite of the strong U.S. dollar and flour mill grind continued at a steady pace. Increasing amounts of wheat and grain sorghum moved into livestock feed channels of the south-southwest. Corn and soybean prices moved lower as large crop prospects and spreading harvest depressed buyers ideas.

WHEAT: Wheat markets moved to mostly higher price levels except at Minneapolis where rains during harvest lowered wheat quality and depressed market prices. A fair surge of export sales and tight farmer holding supported wheat markets. Kansas City No.1 hard red winter ordinary protein wheat rose 1 3/4 cents per bushel. St. Louis No.2 soft red winter wheat rose 4-7 cents per bushel, Minneapolis No.1 dark northern spring 14 percent protein wheat declined 16 3/4 cents per bushel. Portland No.1 soft white wheat advanced 4 cents per bushel.

CORN: Yellow corn markets declined under nearby new crop pressure with Omaha No.2 yellow corn down 12-13 cents per bushel. White corn markets showed dull buying interest and the Kansas City rail delivery bid fell 10 cents per bushel.

OATS AND BARLEY: Oats and barley markets were mostly unchanged but with spots showing a little strength as the harvest crush is over. Barley traded steady to 5 cents higher and oats steady to 3 cents higher per bushel.

SORGHUM: Sorghum traded mixed as newly harvested southwest grain found ready markets in southern poultry areas and in southwest cattle feed lots. Texas High Plains market moved up 10-20 cents but the Kansas City market fell 13 cents per hundred pounds.

OILSEEDS: Soybean markets moved lower in spite of tight holding at the farm level as nearby new crop harvest depressed buyers ideas. Illinois Processor bids fell 6-7 cents per bushel. Minneapolis flaxseed declined 35 cents per bushel. Minneapolis sunflower seed went down 30 cents per hundred pounds. Sunflower oil held unchanged. Decatur 44 percent protein soybean meal averaged $3.00 higher per ton.

INCLUDES SHIPMENTS TO CANADA. YELLOW CORN INCLUDES MIXED CORN

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS: Feed grains traded at mostly lower price levels during the week ended September 10 as harvest spread slowly northward. Cool, rainy weather slowed maturity in northern areas. Feedstuffs traded in mixed price ranges as pastures continue in mostly good condition. Feeding ratios were disappointing and export demand slowed as the U.S. dollar strength returned. Spot shortage of supplies caused most price strength.

OILSEEDS: Tight free stocks of old crop soybeans and widespread processor down-time caused tightness in nearby soybean meal supplies, forcing some prices higher. Decatur 44 percent protein soybean meal and 48 percent protein meal advanced $2.00 per ton. California cottonseed meal traded unchanged but rain delayed cotton harvest in Southern areas and markets rose $4.00 per ton. Minneapolis sunflower 28 percent protein meal traded up $6.00 per ton as cool, damp weather delayed maturity. Minneapolis sunflower oil eased 1/4 cent lower per pound and Decatur soybean oil fell about 1 cent per pound.

ANIMAL PROTEIN: Animal protein feeds were mostly stronger as export buying cleaned up offerings. Reduced slaughter kept offerings tight and feed mixers used maximum amounts in formula feeds. Kansas City meat meal held steady, Minneapolis market declined $5.00, and the Los Angeles market advanced $5.00 per ton. Feather meal rose $10.00 at northern Arkansas and at Minneapolis as poultry processors returned maximum amounts to local poultry feeders. Fish meal market held steady at West coast ports but Gulf and Atlantic port prices rose $20.00 per ton as fishing neared completion in Gulf waters.

CORN FEEDS: Corn feeds traded in widening price ranges as tight supplies forced spots up while nearby new crop pressure lowered values in some areas. Gluten feed traded unchanged to $2.00 lower, corn gluten 60 percent protein meal traded unchanged to $5.00 lower. Distillers' dried grains were mostly unchanged in thin trade and Brewers' dried grains were extremely tight and mostly higher. Yellow hominy feed traded mostly lower under pressure of lower cost new crop corn.

WHEAT MILLFEEDS: Light demand was offset by delayed export bouns flour business and wheat millfeeds markets traded mixed. Buffalo market fell $3.50 per ton for bulk middlings, the Minneapolis market rose $1.00 and the Kansas City market advanced $2.50 per ton as jobbers bought to cover short positions.

ALFALFA PRODUCTS: Dehydrated alfalfa trade is dull with most sales to western feed lots. Prices showed little change as processors were holding for later sales. Full bins added some pressure as rains extended the alfalfa production. Hay markets showed little activity at steady prices.

MOLASSES: Feeding cane molasses remained unchanged in quiet trade with many contacts attending liquid feed supplement symposium. The market appears to have stabilized from various shifts over the previous weeks. Some increased seasonal movement reported at current pricing levels. Demand continued light in the East as high temperatures lowered feed requirements. Beet molasses steady in Red River Valley. Contracting continues in Colorado but prices remain unstable.

FEEDSTUFFS: Wholesale prices, dollars per ton, bulk except Soybean Oil, Sunflower Oil and Animal Fat cents per pound

FEEDSTUFFS: IMPORTS, JULY 1985....17

ALFALFA MEAL: PRODUCTION AND STOCKS AUGUST 1985....18

FEEDSTUFFS: PRODUCTION, JUNE 1985....19

HIGHLIGHTS: Wheat and feedgrains traded in mixed price trend during the week ended Sept. 19. Export demand expanded as Russia began buying corn for the 1985-86 crop year and Egypt bought 5000,000 tons of wheat under the bonus program. The vegetable oil market activity picked up to export channels. Soybeans traded lower as harvest expanded and farmers selling increased.

WHEAT: Wheat markets traded mixed with expanded selling in the Midwest depressed prices but in spring wheat areas in the Pacific northwest areas, the market advanced as mills and exporters needed nearby supplies. Kansas City No.1 hard red winter wheat declined under pressure of expanded farmer selling and resale by exporting firms, ordinary protein wheat declined 7 1/2 cents per bushel. St. Louis No.2 soft red winter wheat fell 2 to 8 cents per bushel. Minneapolis No.1 dark northern spring 14 percent protein wheat advanced 3 cents and Portland No.1 soft white wheat rose 3 to 4 cents per bushel.

CORN: Nearby new crop harvest pressure and increased offerings at most points depressed corn markets. Lack of offerings at a few spots caused pockets of strength. Omaha No.2 yellow corn closed mixed, up 5 cents to down 13 cents per bushel. The Kansas City market fell 10 1/2 cents and the Minneapolis markets went down 7 3/4 cents per bushel. White corn markets continued inactive with practically no selling or buying interest. Kansas City No.2 milling quality white corn by rail delivery bids fell 10 cents per bushel.

OATS AND BARLEY: Oats and barley markets traded in narrow price ranges with most interest in barley for export or California delivery.

SORGHUM: Kansas City No.2 yellow sorghum fell 1 cent per hundred pounds with pressure from rapidly expanding corn harvest and slow feeder demand. Texas High Plains market rose 20 cents as rains delayed harvest.

OILSEEDS: Soybean markets were under pressure of rapidly expanding harvest, slow feed demand, and a pick up in farmers selling due to tight on the farm storage. Illinois Prosessor points bids fell 7 1/2 to 9 1/2 cents per bushel. Mineapolis flaxseed finished unchanged with a weak undertone as receipts by truck increased. Minneapolis sunflower seed fell 10 cents per hundred pounds and sunflower oil rose 1/4 cents per pound. Decatur soybean oil averaged about unchanged.

HIGHLIGHTS: Feedstuffs and feed grains traded in mixed price trends during the week ended Sept. 17. The strong U.S. dollar and large world grain supplies limited export trade. Poor feeding margins, lush pastures and spreading new crop coarse grain harvest, weakened most domestic grain and feed markets. Tight supplies continued to generate spots of strength, particularly in corn feeds.

OILSEEDS: Soybean meal traded mixed but mostly higher as rains delayed new crop soybean harvest. Farmers sold little old crop supplies and several processors took down-time to repair or remodel processing facilities. Decatur 44 percent protein soybean meal rose $5.00 and 48 percent also advanced $4.50 per ton. California cottonseed meal traded 50 cents higher but Memphis market down $5.00 pr ton. Minneapolis linseed meal traded $1.00 lower and 28 percent protein sunflower meal declined $7.00 per ton. Sunflower oil rose 1/2 cent per pound at Minneapolis and Decatur soybean oil was up nearly 1/2 cent per pound.

ANIMAL PROTEIN: Tight supplies and steady demand kept meat meal markets firm with most markets up $5.00 per ton. Fish meal traded mostly higher, but with some Gulf products offered lower to move increased amounts from storage. Fishing resumed with good catch in Gulf waters. Feather meal markets were strong with most supplies sold ahead and current prices advanced as much as $5.00 to $10.00 per ton.

CORN FEEDS: Corn feeds markets traded mixed with tight supplies furinshing the strength and spreading coarse grains harvest producing weak spots. Illinois Points corn gluten feed traded $1.50 lower per ton. Yellow hominy feed advanced $2.00 per ton at Illinois Points but held steady at Kansas City. Distillers' dried grains are in tight supply and priced mostly unchanged. Brewers' dried grains trade is thin with production extremely light but demand is narrow with prices mixed.

WHEAT MILLFEEDS: Delayed export flour business tightened wheat millfeeds supplies and the market was mostly stronger but with an occasional lower quote as flour mills prepared to start on the Egyptian flour order.

ALFALFA PRODUCTS: Alfalfa markets are dull and little changed as mostly lush pasturage reduced demand for alfalfa and lower cost wheat middlings further cut demand in many areas.

MOLASSES: Feed cane molasses traded $5.00 higher at most terminals. Exceptions were Kansas City and Los Angeles traded steady. Limited available supplies, especially of good quality molasses, the primary influence for the upward price move. New crop supplies not expected until last quarter of the year. Contracting of new crop sugarbeet molasses fairly active in the Red River Valley and Rocky Mountain states. Slicing operations now underway at Red River Valley plants.

FEEDSTUFFS: Wholesale prices, dollars per ton, bulk except Soybean Oil, Sunflower Oil and Animal Fat cents per pound

DISTILLERS' AND BREWERS' DRIED GRAINS: U.S. PRODUCTION AND STOCKS, AUGUST 1985....18

AUTOMATIC TELEPHONE REPORTING SERVICE....19

HIGHLIGHTS: Wheat and feed grain markets traded mostly higher during the week ended Sept. 26 as rains delayed harvest. Russia re-entered the U.S. corn market adding market support. Tight storage gave markets a weaker underton as clearing skies allowed many farmers to resume harvest. U.S. dollar weakness increased export buying interest.

WHEAT: Wheat markets responded to a pick-up in flour mill and exporter buying and closing wheat prices went up in all areas. Kansas City No.1 hard red winter ordinary protein wheat rose 1/2 cent per bushel. St. Louis No.2 soft red winter wheat advanced 5-12 cents per bushel. Minneapolis No.1 dark northern spring wheat 14 percent protein rose 15 cents per bushel. Portland No.1 soft white wheat went up 4 cents per bushel.

CORN: Yellow corn markets traded mixed as storage is tight, farmer selling light, and harvest pressure is increasing as weather cleared over much of the midwest. Russian corn buying added market support. Omaha No.2 yellow corn finished mixed, 1 cent lower to 10 cents higher per bushel. White corn trade continues inactive with rail bids steady for No.2 milling quality. Truck bids are uneven, ranging from the yellow corn equivalent price to a 17 cent per bushel premium over yellow corn price.

OATS AND BARLEY: Oats and barley markets continued dull in mixed price trends and sharply below last seasons price.

SORGHUM: Yellow sorghum trade dull with wheat for feed use expanding in the Southwest. Stronger corn markets gave support to sorghum markets. Texas High Plains sorghum traded up 10-15 cents per hundred pounds.

OILSEEDS: Soybean markets traded mixed under harvest pressure as farmers sold lightly and export demand widened on U.S. dollar weakness. Illinois Processor soybean bids declined 1 1/2-2 1/2 cents per bushel. Most other markets posted gains of 3/4 cent to 6 3/4 cents per bushel. The Kansas city market advanced 9 3/4-10 3/4 cents per bushel under pressure of processors filling increased export demand. Minneapolis flaxseed went up 10 cents per bushel. Minneapolis sunflower seed declined 10 cents per hundred pounds as buyers awaited new crop harvest before purchasing large amounts.

1/ SUNFLOWER SEED OFFICIAL INSPECTION BEGAN SEPTEMBER 1, 1984.
SUNFLOWER SEEDS NOW REPORTED IN 1,000 BUSHELS.

INCLUDES SHIPMENTS TO CANADA. YELLOW CORN INCLUDES MIXED CORN.

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS: Feedstuffs and feed grain markets traded in mixed price trends during the week ended Sept. 24. Feeder demand remained quite due to plentiful supplies of on-farm grains, lush pastures and poor feeding ratios. Export demand surged as the U.S. dollar turned sharply weaker and Russia bought U.S. corn for 1985/86.

OILSEEDS: Rain delayed harvest and a sharp pick up in buying interest which occurred after the U.S. dollar lost strength, caused protein feeds including soybean meal to move mostly higher. The Decatur 44 percent protein soybean meal market and 48 percent protein meal advanced $2.50 per ton. Cottonseed meal was under pressure of new crop harvest in California and at southern mills, trading 50 cents lower in California and $7.50 per ton lower at Memphis. Minneapolis linseed meal rose $2.00 per ton with scarce supply. Sunflower 28 percent protein meal fell $3.00 per ton and sunflower oil traded steady. Decatur soybean oil eased slightly lower.

ANIMAL PROTEIN: Animal protein feeds picked up strength from a surge of export buying interest as the U.S. dollar market weakened. Meat meal markets were mostly $5.00-10.00 per ton higher, feather meal markets rose $5.00-10.00 and fish meal markets ranged $6.25-18.00 per ton higher.

CORN FEEDS: Rains delayed corn harvest over the main corn belt and cash corn products showed mixed price trends. Corn gluten feed traded steady to $2.00 per ton lower, corn gluten meal traded mostly stronger, yellow hominy feed was mostly $2.00 per ton lower but scarce brewers' dried grains traded sharply higher. Distillers' dried grains markets were steady to strong with several beverage alcohol plants remaining inactive.

WHEAT MILLFEEDS: Wheat millfeeds traded mixed as most buying interest was from jobber covering as pastures remain good and farmers have plentiful grain supplies on farms. The relatively low price for wheat middlings kept the product moving freely in feed deficit areas.

ALFALFA PRODUCTS: Alfalfa trade remained slow but at the close, sharply lower temperatures across northern production areas, probably curtailed production for the current season over large acreages and processors were reported firming prices. Most quoted prices remained unchanged at the close.

MOLASSES: Feed cane molasses held steady except in California where prices moved $2.50 higher. Supplies of molasses currently limited as the beginning-of-fall demand relatively good for both feed use and fermentation. Contracting of new crop sugarbeet molasses modertely active at fully steady prices. Harvesting in the Red River Valley slowed due to wet weather.

FEEDSTUFFS: Wholesale prices, dollars per ton, bulk except Soybean Oil, Sunflower Oil and Animal Fat cents per pound

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory list 28 services in 20 states that are currently in operation.
